

THE EUROPEAN PLATFORM FOR JUDICIAL AUCTIONS

www.ejudicialauctions.eu

European Platform for Judicial Auctions

For Citizens and Businesses

The **European Platform for Judicial Auctions** follows the **one-stop-shop approach** to allow users for **simultaneous data search in all connected national platforms for judicial auctions** by means of pre-defined set of data elements. The user can filter by auction and asset, with the search granularity being proportionate to the volume of estimated responses.

- **Auctions** can be searched by modality (electronic, in person, hybrid) and location (if in person), date and time, deposit and currency, and deadline to participate.
- **Assets** can be searched by type (movable, immovable), category (e.g., buildings, land, etc.) profile (e.g., residential, commercial, etc.), location, and price range.

All cross-country results are presented in a **uniform and commonly interpretable way** in the form of lists, in a predefined number of European languages, and on the EU map.

For professionals/competent authorities

As of the end of 2023, the European Platform for Judicial Auctions integrates information from the national platforms of **Croatia, Czech Republic, France, Italy, Latvia** and **Lithuania**. It is expected for **Portugal** to connect in the beginning of 2024.

In order for a new Member State to join the platform, three use cases have been developed to serve the various scenarios on national level (no national platform for judicial auctions / only one national platform / multiple auction platforms). To serve their needs, a toolbox for easy adoption of the Platform by competent authorities across EU has been developed.

Should you represent a competent authority and/or a national professional body interested to join the Platform, review the deployment documentation listed [here](#) and/or get in touch with the Platform Technical Team via office@ejudicialauctions.eu.

Project at a Glance

Full Title:

LEILA – towards a multilingual European platform for judicial Auctions

Coordinator:

Ministry of Justice, Italy

Funding scheme:

Justice Programme 2020

Grant Agreement No.:

101007385

Duration:

01/02/2021 – 30/11/2023
