

THE EUROPEAN PLATFORM
FOR JUDICIAL AUCTIONS

LEILA – A Novel Approach to Cross-Border Judicial Cooperation

Policy Brief #4

Introduction

‘LEILA – towards a multilingual European platform for judicial Auctions’ (LEILA) Project presents a ground-breaking approach to cross-border judicial cooperation that addresses a pressing need within the European Union. Unlike existing cross-border use cases based on e-CODEX¹ and the eEvidence Digital Exchange System (eEDES)², which build on existing regulations that define cross-border procedures for specific use cases, LEILA emerges from a collaborative effort to modernize and streamline the process of judicial auctions across Europe in a domain which is not procedurally regulated for EU cross-border cases. By harnessing the power of technology and innovation, LEILA offers a novel solution that transcends traditional boundaries, paving the way for enhanced efficiency, accessibility, and collaboration in the realm of judicial auctions.

Unique Value Proposition

LEILA’s approach to cross-border judicial cooperation is distinguished by its focus on addressing a fundamental need within the EU: the standardization and centralization of judicial auction processes. Unlike existing legal procedures considered for cross-border

¹ e-Justice Communication via Online Data Exchange – a computerised system for the cross-border electronic exchange of data in the area of judicial cooperation in civil and criminal matters as per Regulation (EU) 2022/850 of the European Parliament and of the Council of 30 May 2022 on a computerised system for the cross-border electronic exchange of data in the area of judicial cooperation in civil and criminal matters (e-CODEX system), and amending Regulation (EU) 2018/1726. This project was funded by the European Union’s Justice Programme (2014-2020) under Grant Agreement No. 101007385

digitization which are supported by EU regulations, LEILA's Platform offers a comprehensive solution that caters to the diverse needs of stakeholders across Europe without the existence of a specific EU legal framework regulating its use case(s). By leveraging advanced technology and best practices in information governance, LEILA provides a unified platform that enables seamless access to judicial auction data, thereby facilitating informed decision-making and fostering greater transparency and accountability in the judicial process.

Alignment with EU Objectives

LEILA's innovative approach aligns closely with key objectives outlined in the EU's digitalization and justice reform agendas. By promoting interoperability, transparency, and efficiency in cross-border judicial cooperation, LEILA contributes to the broader goal of building a more integrated and accessible European justice system. Moreover, LEILA's emphasis on multilingualism and accessibility ensures that its benefits are accessible to citizens and stakeholders across linguistic and geographical boundaries, thereby promoting inclusivity and equal access to justice.

Potential Impact and Benefits

The implementation of LEILA has the potential to yield significant benefits for both EU institutions and member states. By providing a centralized platform for judicial auctions, LEILA streamlines administrative processes, reduces bureaucratic inefficiencies, and enhances the overall effectiveness of cross-border cooperation. Moreover, LEILA's emphasis on data standardization and information governance ensures the integrity and reliability of judicial auction data, thereby enhancing trust and confidence in the judicial system. Additionally, LEILA's innovative approach to cross-border cooperation sets a precedent for future initiatives aimed at modernizing and harmonizing legal procedures across Europe, thereby contributing to the long-term goals of European integration and cooperation.

Conclusion

In conclusion, LEILA represents a paradigm shift in cross-border judicial cooperation within the EU. By offering a novel approach that addresses a pressing need and builds on EU

objectives for digitalization and justice reform, LEILA presents a compelling solution that has the potential to transform the landscape of judicial auctions across Europe. As the project continues to evolve and expand, LEILA stands poised to play a pivotal role in shaping the future of cross-border cooperation and legal innovation within the EU.
