Grant Agreement No. 101007385

## **LEILA – towards a muLtilingual European platform for judlciaL Auctions**

**LEILA Technical Workshop on Step-by-step  
Deployment**

**11<sup>th</sup> September 2023**

**Thessaloniki, Greece**

This project was funded by the European Union's Justice  
Programme (2014-2020) under Grant Agreement No. 101007385

## About LEILA

‘LEILA – towards a multilingual European platform for judicial Auctions’ (LEILA) is an EU-funded project in the judicial auctions’ domain. It is focused on providing a pilot multilingual platform for judicial auctions taking place in more than one EU Member State, where information about goods to be sold at judicial auctions is reported together with the related regulations.

The platform can be connected to Member States’ judicial auctions’ national information systems to retrieve judicial auctions’ data in an automated way and present it to European citizens searching for auctions in several countries, in a uniform EU format. Such integration guarantees that information would be kept up-to-date and trustworthy, while providing a simple and intuitive graphic user-friendly interface facilitating complex searches and enabling users to compare the search results in a selected language. The platform also provides functionalities for manual upload and update of information where such national information systems doesn’t exist.

## Workshop Agenda

**Monday, 11<sup>st</sup> September 2023, 09.30 – 16.00 EEST**
